CLAIMS

What is claimed is:

| 1 | 1. | A method of depicting a plurality of items and how said plurality of items satisfy |
|--------|----|--|
| 2 | | multiple criteria, the method comprising the steps of: |
| 3 | | displaying in a particular order a list of visual indicators, wherein the particular order |
| 4 | | indicates how a plurality of items satisfy a first criteria; |
| 5 | | detecting input indicating the selection of a second criteria; and |
| 6 | | while retaining said particular order, displaying a visual indication of how said |
| 7 | | plurality of items satisfy a second criteria. |
| 1 | 2. | The method of claim 1, wherein the steps further include |
| 2 | | a browser receiving a self-contained page; and |
| 3 | | wherein the steps are performed by said browser in response to executing said self- |
| 4 | | contained page, without said browser having to interact over a network with a |
| 5 | | server to determine how said plurality of items satisfy said second condition. |
| 1 | 3. | The method of claim 2, wherein the step of the browser receiving the self-contained |
| 2 | | page includes the browser receiving the self-contained page over the network from |
| 3 | | the server. |
| 1 | 4. | The method of claim 2, wherein the step of the browser receiving the self-contained |
| 2 | | page includes said browser causing said self-contained page to be read from |
| 3 | | removable computer-media. |
| 1 | 5. | The method of claim 1, wherein the step of displaying a visual indication includes |
| 2 | | displaying one or more other visual indicators visually associated with a subset of |
| - 3 | | items that satisfy said second criterio |

| I | 6. | The method of claim 1, wherein the step of displaying a visual indication includes |
|---|-----|---|
| 2 | | altering the visual appearance of one or more visual indicators from said list of visual |
| 3 | | indicators. |
| 1 | 7. | The method of claim 1, wherein |
| 2 | | said first criteria is based on an alphabetic order of names associated with said |
| 3 | | plurality of items; and |
| 4 | | the particular order of the list of visual indicators indicates the alphabetic order of the |
| 5 | | name of the items. |
| 1 | 8. | The method of claim 1, wherein: |
| 2 | | the step of detecting input indicating the selection of a second criteria includes |
| 3 | | detecting input selecting a particular category of a plurality of categories; and |
| 4 | | the step of displaying a visual indication of how said plurality of items satisfy a |
| 5 | | second criteria includes displaying a visual indication of which items of said |
| 6 | | plurality of items belong to said particular category. |
| 1 | 9. | The method of claim 8, wherein said step of detecting input selecting a particular |
| 2 | | category includes detecting that a user has selected said particular category as a |
| 3 | | selection in a list box listing said plurality of categories as selections. |
| 1 | 10. | The method of claim 1, wherein the steps further include: |
| 2 | | detecting input indicating the selection of a third criteria; and |
| 3 | | while retaining said particular order, displaying a visual indication of how said |
| 4 | | plurality of items satisfy said third criteria, wherein said third criteria is |
| 5 | | different from said second criteria |

| 1 | 11. | A method of generating a page this causes a browser to depict a plurality of items and |
|----|-----|---|
| 2 | | how said plurality of items satisfy multiple criteria, the method comprising the steps |
| 3 | | of: |
| 4 | | generating first page elements that cause said browser to display in a particular order |
| 5 | | a list of visual indicators, wherein the particular order indicates how said |
| 6 | | plurality of items satisfy a first criteria; |
| 7 | | generating one or more second page elements that enable the browser to receive user |
| 8 | | input indicating a selection of one or more criteria of a plurality of criteria; |
| 9 | | and |
| 10 | | generating third page elements that cause the browser to display, for each particular |
| 11 | | criterion of a plurality of criteria, a visual indication of how said plurality of |
| 12 | | items satisfy said particular criterion, without changing said particular order, |
| 13 | | in response to receiving user input indicating a selection of said particular |
| 14 | | criterion. |
| 1 | 12. | The method of Claim 11, wherein: |
| 2 | | the steps further include issuing a query to a database system that stores information |
| 3 | | about said plurality of items, wherein said query requests data that may be |
| 4 | | used to determine which set of items of said plurality of items satisfy a first |
| 5 | | criterion of said plurality of criteria; |
| 6 | | receiving results of the query from the database system; and |
| 7 | | wherein the step of generating third page elements is based on an examination of the |
| 8 | | results. |
| 1 | 13. | The method of claim 11, wherein the steps further include |

| ~ | | performing an examination of contents of said pidranty of items to determine which of |
|---|-----|--|
| 3 | | said plurality of elements satisfy a particular criteria of said plurality of |
| 4 | | criteria; |
| 5 | | wherein the step of generating third page elements is based on said examination of |
| 6 | | the contents. |
| 1 | 14. | A computer-readable medium carrying one or more sequences of instructions for |
| 2 | | depicting a plurality of items and how said plurality of items satisfy multiple criteria, |
| 3 | | wherein execution of the one or more sequences of instructions by one or more |
| 4 | | processors causes the one or more processors to perform the steps of: |
| 5 | | displaying in a particular order a list of visual indicators, wherein the particular order |
| 6 | | indicates how a plurality of items satisfy a first criteria; |
| 7 | | detecting input indicating the selection of a second criteria; and |
| 8 | | while retaining said particular order, displaying a visual indication of how said |
| 9 | | plurality of items satisfy a second criteria. |
| 1 | 15. | The computer-readable medium of claim 14, wherein the steps further |
| 2 | | include |
| 3 | | a browser receiving a self-contained page; and |
| 4 | | wherein the steps are performed by said browser in response to executing said self- |
| 5 | | contained page, without said browser having to interact over a network with a |
| 6 | | server to determine how said plurality of items satisfy said second condition. |
| 1 | 16. | The computer-readable medium of claim 15, wherein the step of the browser |
| 2 | | receiving the self-contained page includes the browser receiving the self-contained |
| 3 | | page over the network from the server. |

| 1 | 17. | The computer-readable medium of claim 15, wherein the step of the browser |
|---|-----|---|
| 2 | | receiving the self-contained page includes said browser causing said self-contained |
| 3 | | page to be read from removable computer-media. |
| 1 | 18. | The computer-readable medium of claim 14, wherein the step of displaying a visual |
| 2 | | indication includes displaying one or more other visual indicators visually associated |
| 3 | | with a subset of items that satisfy said second criteria. |
| 1 | 19. | The computer-readable medium of claim 14, wherein the step of displaying a visual |
| 2 | | indication includes altering the visual appearance of one or more visual indicators |
| 3 | | from said list of visual indicators. |
| 1 | 20. | The computer-readable medium of claim 14, wherein |
| 2 | | said first criteria is based on an alphabetic order of names associated with said |
| 3 | | plurality of items; and |
| 4 | | the particular order of the list of visual indicators indicates the alphabetic order of the |
| 5 | | name of the items. |
| 1 | 21. | The computer-readable medium of claim 14, wherein: |
| 2 | | the step of detecting input indicating the selection of a second criteria includes |
| 3 | | detecting input selecting a particular category of a plurality of categories; and |
| 4 | | the step of displaying a visual indication of how said plurality of items satisfy a |
| 5 | | second criteria includes displaying a visual indication of which items of said |
| 6 | | plurality of items belong to said particular category. |
| 1 | 22. | The computer-readable medium of claim 21, wherein said step of detecting input |
| 2 | | selecting a particular category includes detecting that a user has selected said |

| 3 | | particular category as a selection in a list box listing said plurality of categories as |
|----|-----|--|
| 4 | | selections. |
| 1 | 23. | The computer-readable medium of claim 14, wherein the steps further include: |
| 2 | | detecting input indicating the selection of a third criteria; and |
| 3 | | while retaining said particular order, displaying a visual indication of how said |
| 4 | | plurality of items satisfy said third criteria, wherein said third criteria is |
| 5 | | different from said second criteria. |
| 1 | 24. | A computer-readable medium carrying one or more sequences of instructions for |
| 2 | | generating a page this causes a browser to depict a plurality of items and how said |
| 3 | | plurality of items satisfy multiple criteria, wherein execution of the one or more |
| 4 | | sequences of instructions by one or more processors causes the one or more |
| 5 | | processors to perform the steps of: |
| 6 | | generating first page elements that cause said browser to display in a particular order |
| 7 | | a list of visual indicators, wherein the particular order indicates how said |
| 8 | | plurality of items satisfy a first criteria; |
| 9 | | generating one or more second page elements that enable the browser to receive user |
| 10 | | input indicating a selection of one or more criteria of a plurality of criteria; |
| 11 | | and |
| 12 | | generating third page elements that cause the browser to display, for each particular |
| 13 | | criterion of a plurality of criteria, a visual indication of how said plurality of |
| 14 | | items satisfy said particular criterion, without changing said particular order, |
| 15 | | in response to receiving user input indicating a selection of said particular |
| 16 | | criterion. |
| | | |

The computer-readable medium of Claim 24, wherein:

1

25.

| 2 | the steps further include issuing a query to a database system that stores infor | mation |
|---|--|----------|
| 3 | about said plurality of items, wherein said query requests data that ma | ıy be |
| 4 | used to determine which set of items of said plurality of items satisfy | a first |
| 5 | criterion of said plurality of criteria; | |
| 6 | receiving results of the query from the database system; and | |
| 7 | wherein the step of generating third page elements is based on an examination | n of the |
| 8 | results. | |
| | | |
| 1 | 26. The computer-readable medium of claim 24, wherein the steps further include | e |
| 2 | performing an examination of contents of said plurality of items to determine | which of |
| 3 | said plurality of elements satisfy a particular criteria of said plurality o | f |
| 4 | criteria; | |
| 5 | wherein the step of generating third page elements is based on said examinat | ion of |
| 6 | the contents | |
